Poshmark tools Requirements

- 1. Internet Explorer 9 or above**
Download/update Internet Explorer
from below link
- 2. Dot net framework 4.6 or above**
Download/update Dotnet framework
from below link

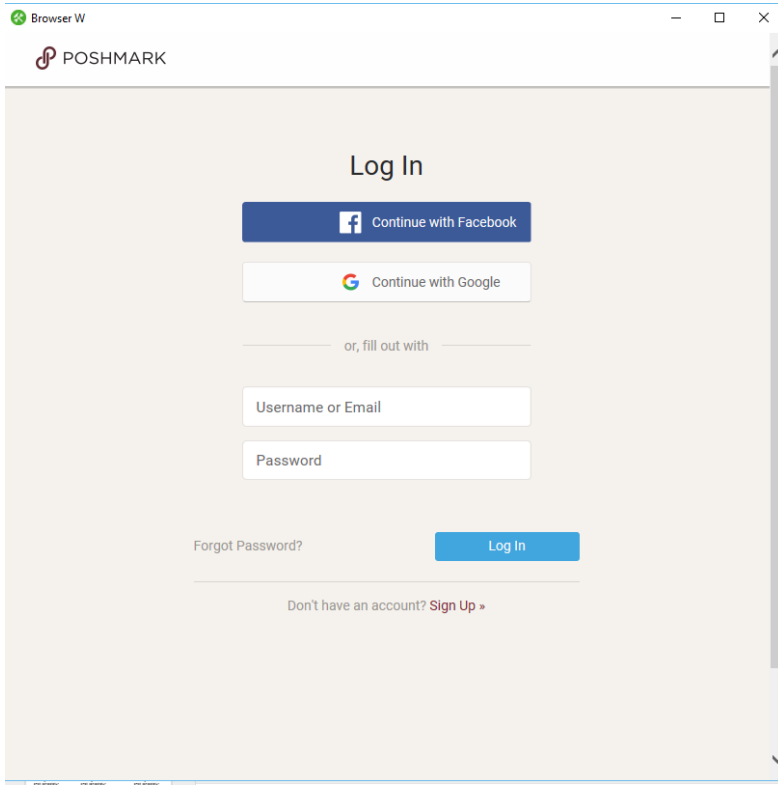

<https://www.microsoft.com/en-us/download/internet-explorer.aspx>

<https://www.microsoft.com/net/download/dotnet-framework-runtime>

STEP 2. You'll be directed to the page where you can download the app, click the **DOWNLOAD** button below, and the file will be automatically be downloaded, unzip to new empty folder and run it as an administrator.

STEP 3. Once you install the app, these forms will pop up your monitors.

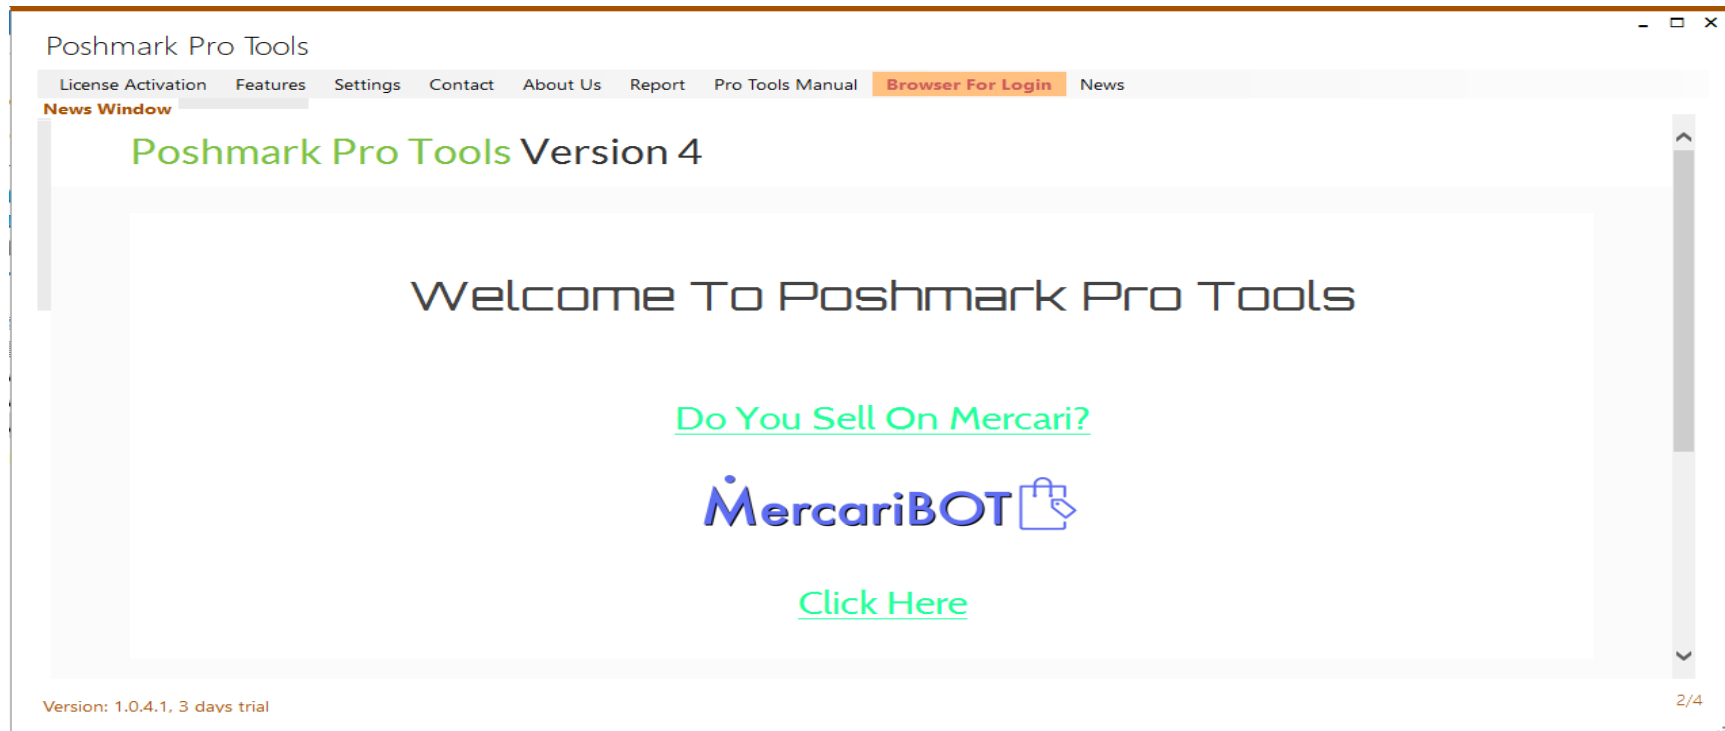

The image shows a browser window titled "Browser W" displaying the Poshmark login page. The page has a light beige background. At the top left is the Poshmark logo. The main heading is "Log In". Below it are two social login buttons: "Continue with Facebook" (blue with a white Facebook icon) and "Continue with Google" (white with a colored Google icon). Below these is a separator line with the text "or, fill out with". Underneath are two input fields: "Username or Email" and "Password". At the bottom left is a link "Forgot Password?", and at the bottom right is a blue "Log In" button. At the very bottom, there is a link "Don't have an account? Sign Up »".

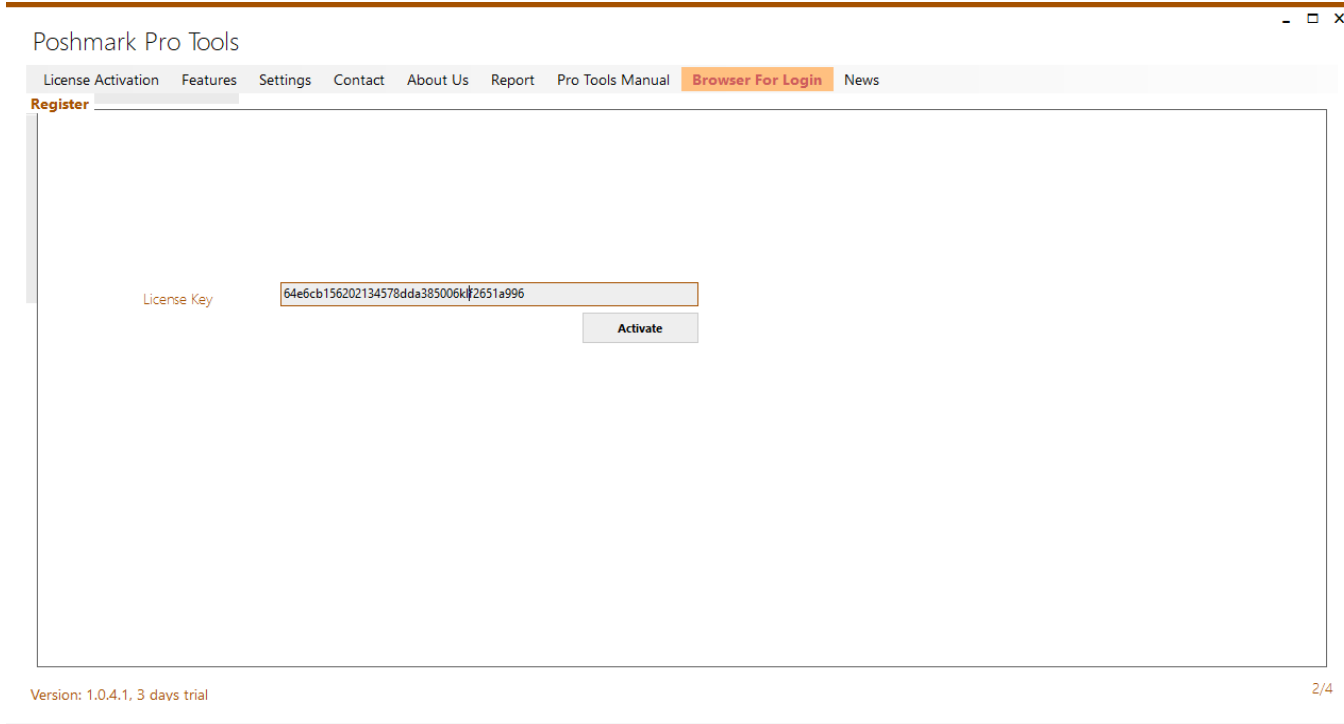

In this form, you can log -in into your account using your Facebook or Google or your Poshmark account.

In this form, you can see the registration menu, the different features, settings, how and where to contact us

Activate License (Required)

To activate Pro tools app , you need to type your license key and click on Activate button

The screenshot shows a web application window titled "Poshmark Pro Tools". The window has a navigation bar with the following links: "License Activation", "Features", "Settings", "Contact", "About Us", "Report", "Pro Tools Manual", "Browser For Login" (highlighted in orange), and "News". Below the navigation bar, there is a "Register" link. The main content area contains a "License Key" label, a text input field with the license key "64e6cb156202134578dda385006k12651a996", and an "Activate" button. At the bottom left, it says "Version: 1.0.4.1, 3 days trial". At the bottom right, it says "2/4".

☐ Share back the last [X] closets who shared my listings, and share back [X] of their listings each.

Our app has random delay option, this feature shows a humanly nature, as if app will wait on constant time every time, POSHMARK will detect it as a bot, so we added random delay.

In each delay you can provide 2 values, 1 minimum delay value and 2 max delay value and app will choose a random value itself, Their delay format is 3,7 so it means app will select any number between 3 to 7 and app waits for that seconds.

FEATURES

PINPOSH

Aside from Instagram, you can also connect your [PINTEREST](#) account to your poshmark closet.

Provide your Pinterest username and password in the field.

Click login account button,

The Protools app will fetch your pinterest boards, select board where you want the pin to be created. Provide quantity of listings or select check box (upload all available) to fetch all listings

Click start button, once listings will be fetched delete unwanted listing by selecting and clicking **DELETE** button from keyboard,

Press **UPLOAD** on pinterest button to upload on pinterest

The screenshot shows the 'PinPosh' interface within the 'Poshmark Pro Tools' application. The interface includes a navigation bar with links: Register, Features, Settings, Contact, and About Us. The main section is titled 'PinPosh' and contains the following elements:

- Registration Fields:** 'Pinterest Username' and 'Pinterest Password' input fields, a 'Login account' dropdown menu, and a 'Delay' input field set to '5,7'. Red arrows point to these fields.
- Import Options:** A section for '# of Listings to import from Poshmark' with a value of '30' and a checkbox for 'Upload All available items'. A red arrow points to this section.
- Upload Button:** A button labeled 'upload on Pinterest'. A red arrow points to this button.
- Listings Table:** A table with columns: Title, Description, Price, image, and Link. The table body is currently empty.
- Instructions:** A note below the table says 'Delete unwanted rows and click upload button'.
- Control Buttons:** At the bottom, there are four buttons: 'Start', 'Stop', 'Pause', and 'Continue'.

CAPTCHAS

If you get the “Captcha Found” pop-up message, close the pop-up message, then do the manual share (if you are sharing) or manual follow (if you are following)

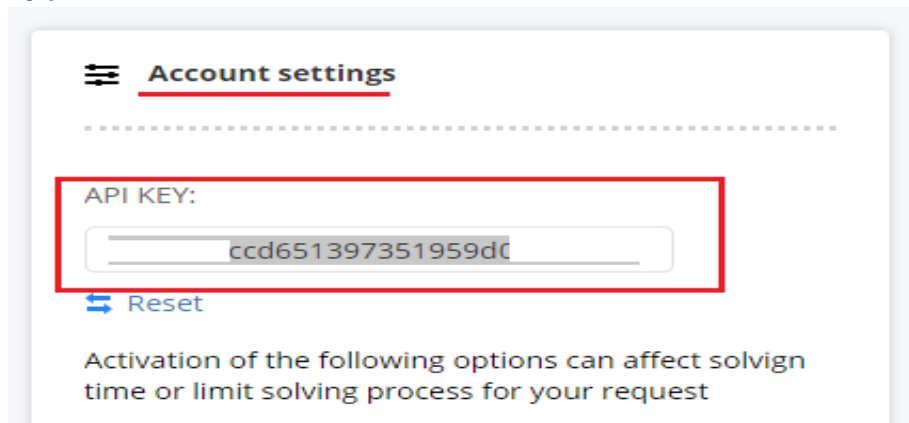

Then, go back into the software and press “Continue” (bottom right)

Auto CAPTCHAS solving (2captcha API)

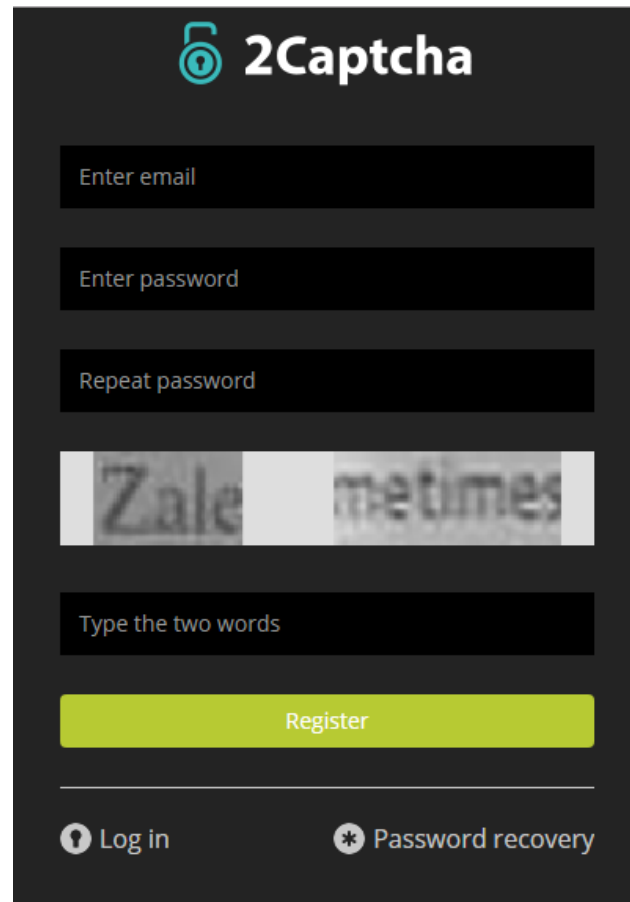

Step 1. Go to <https://2captcha.com?from=5020607>

Step 2. Sign up for their service. Fill up the form.

Step 3. Then sign-in to 2Captcha, go to Account settings on their dashboard and copy your API key, copy complete key by double click on text then copy

The screenshot shows the 'Account settings' page of the 2Captcha dashboard. A red rectangle highlights the 'API KEY' section, which contains a text input field with the value 'ccd651397351959dc'. Below the input field is a 'Reset' button with a circular arrow icon. At the bottom of the page, there is a note: 'Activation of the following options can affect solvign time or limit solving process for your request'.

The screenshot shows the 2Captcha registration form. It has a dark background with the 2Captcha logo at the top. The form includes several input fields: 'Enter email', 'Enter password', and 'Repeat password'. Below these is a CAPTCHA image showing the words 'Zale' and 'metimes'. Underneath the image is a field labeled 'Type the two words'. A large green 'Register' button is positioned below the form fields. At the bottom of the page, there are links for 'Log in' (with a user icon) and 'Password recovery' (with an asterisk icon).

SETTINGS/CONFIGURATION

Setup 2captcha, for auto captcha solve

Step 1) Now goto poshmark pro tools, select menu -> Settings -> Configuration and paste your API Key in 2 captcha key box.

Step 2) Provide your 2captcha username and password in the asked fields

Step 3) Click Configure button, if you gets a message that says

“Your total balance of 2captcha is X \$.”

Your 2captcha is configured successfully, now app will start solving captchas itself.
